Transfer of Management of Recognised Institutions.

No. 2084-5 EDN. 22-18-3, DATED 3RD SEPTEMBER 1918.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No. 836-38, dated the 10th July 1918, from the Inspector-General of Education, bringing to the notice of Government a few instances in which transfers of management of aided institutions from one agency to another have been made without consulting the Inspector-General of Education, and requesting that necessary provision may be made in the Grant-in-aid Code so as to empower him to exercise authority in respect of the transfer of management of aided schools from one agency to another.

Order No. 2084-5—Edn. 22-18-3, dated 3rd September 1918.

Government agree with the Inspector-General of Education that a specific rule should be introduced reserving power to the department to control the transfer of management from one agency to another in the case of institutions receiving Government grants and are pleased to direct that the following clause be added at the end of Chapter III of the Mysore Education Rules:—

> "When a recognised institution ceases to exist or is transferred to a different locality, or different managing body, its recognition lapses and for the purpose of future recognition it shall be treated as a new institution."

Under Rule III (i) of the Mysore Grant-in-aid Code a grant can be sanctioned only after the institution becomes a recognised institution and no further provision is necessary in the Grant-in-aid Code.

2. The Inspector-General of Education states that a new High School has been opened under the recognition previously granted to the S. L. N. National High School. Government consider that under the circumstances, the recognition previously granted to the old school cannot be held to be valid in respect of the new school and the question of the recognition of the new school should be considered *de novo* under the existing circumstances of the case.

Read—

Government Order No. 2352-6—Edn. 19-16-3, dated the 21st September 1916, placing Mr. M. Venkatesiengar, M.A., Probationary Assistant Commissioner, on Special duty under the Inspector-General of Education for a period of three months to draw up a review of the progress of education in the State during the quinquennium 1911-16.

2. Government Order No. 5205-8—Edn. 19-16-5, dated 9th January 1917, extending the period of special duty by six weeks.

3. Letter No. 7704—285, dated the 11th September 1917, from the Inspector-General of Education, submitting the quinquennial review.

Order No. 2211-60—Edn. 19-16-14, dated Bangalore, the 6th September 1918.

With a view to take stock of the educational work done so far and to lay down the general principles that should guide educational advancement in the future, Government directed in 1916 the preparation of a review of educational progress during the five years from 1911 to 1916. The present review prepared in accordance with that order is the first of its kind in the State. It contains also brief retrospects of the development of education from 1854 and makes an almost complete survey of the history of education in the State since that year.

2. A table is appended to this review showing the increases during the quinquennium in the numbers (1) of institutions of different kinds and grades. (2) scholars under instruction and (3) expenditure incurred on education. The figures reveal a record of steady and substantial progress in all directions.

3. The most noteworthy features of the educational development in the State during the five years under review are the following :—

(i) The establishment of the University of Mysore.
(ii) The introduction of the Secondary School-Leaving Certificate Scheme in Secondary Schools.
(iii) The expansion of Primary Education and the introduction of Compulsory Elementary Education.
(iv) The development of Technical Education and of practical instruction in the General Schools.
(v) Provision of facilities for the Education of adults.
(vi) Encouragement of Female Education.
(vii) Promotion of education among the Mohamedans and specially backward classes.
(viii) Improved facilities for the training of Teachers.
(ix) The educative work of the Mysore Economic Conference.

4. *The Mysore University.*—The University of Mysore came into existence only at the close of the quinquennium under review. It approximates to the modern teaching and residential type with special features suited to the conditions in Mysore.

5. *Secondary Education.*—A notable feature of the Secondary School-Leaving Certificate Scheme here as elsewhere, is the inclusion of a "modern side" in the curriculum of studies, intended to fit students for a business life and the public service. A sufficiently large number of students have not however taken to these courses yet, but a change for the better is making itself visible.

6. *Primary Education.*—Perhaps the most important educational reform in the quinquennium was the introduction of compulsion in primary education by the passing of the Elementary Education Regulation of 1913. The Regulation was at first introduced only into the cities and larger towns, was gradually extended to all taluk headquarter stations and many large villages. and is now in force in 238 places. Recently, upon repeated suggestions by the people in the Representative Assembly and elsewhere, Government have extended the operation of the scheme to girls in the cities of Bangalore and Mysore. The general attitude of the people towards this new measure has been one of genuine sympathy and co-operation. The further development of the scheme is, however, likely to be limited by the difficulties in the way of providing adequate funds and Government look forward to further co-operation from the people in finding the funds necessary for the complete extension of the scheme.

7. With a view to increase the number of private institutions for primary education, the provisions of the grant-in-aid code were made more favourable, yearly grants on the basis of results being replaced by monthly disbursements according to the needs of the institutions. This led to the opening of over 2,150 Aided Primary Schools during the quinquennium and their number is constantly on the increase. This encouragement of private schools has engendered a spirit of self-help and stimulated among the people considerable interest in matters educational.

To provide for the efficient inspection of these schools the inspectorate was strengthened in 1915. A new class of Inspectors styled "Educational Supervisors" was also instituted to assist the existing Inspectors.

Government note that the paucity of trained teachers has prevented the raising of the standard of instruction given in these schools to the desired extent. Further, a large proportion of the children in these village schools leave them after receiving a very elementary course of instruction. Efforts should be redoubled in future not only to increase the supply of trained teachers but also to extend appreciably the average length of a pupil's school life, which is now only about four years, so that he may learn something more than the three R's.

8. *Technical Education.*—With the object of improving the arrangements for technical education, Government appointed in 1910 a Special Committee which submitted its report in September 1912. As a result of their recommendations a Mechanical Engineering School was established at Bangalore and the Engineering and the Industrial Schools at Mysore were combined and developed into the present Chamarajendra Technical Institute. Provision was also made for imparting Commercial education both in Mysore and Bangalore. The Industrial schools already in existence were improved and new ones started at District headquarters.

To give a practical bent to the lower grades of literary education, Government sanctioned also in 1915 a scheme for imparting elementary practical instruction in the Elementary and Anglo-Vernacular Schools.

9. *Education of Adults.*—Side by side with the education of boys and girls adult education also has received special impetus during the quinquennium. As many as 566 schools were started for this purpose and the number of pupils under instruction was 11,135. But large as the progress has been, it is by no means anything like adequate. Government see no reason why, as an adjunct to every day-school, a night-school or a continuation class for adults should not be organised at very little expenditure and they look forward to rapid development in this direction in the next few years.

10. *Education of Girls and Women.*— During the quinquennium the number of institutions for the education of girls and women increased by 79 per cent and the percentage of pupils under instruction to the population of school-going age rose from 5·5 in 1910-11 to 9·7 in 1915-16. It is gratifying to note that this measure of progress has been possible, in spite of social and other difficulties. The classification of scholars by grades shows however that a large majority of girls are in the primary stages of education, and that the figures show a considerable fall in the secondary grade and an even more noticeable decrease in the Collegiate grade. A large increase in these grades is however necessary both to ensure an adequate supply of qualified lady teachers and doctors for whom there is an ever increasing and insistant demand, and also to bridge

the gulf that exists between the hopes, aspirations and ideals of the two sexes due to disparity of educational equipment.

A determined effort in this direction is necessary and Government would bespeak the co-operation of the public in this cause.

11. *Education of Special Communities.*—The Mahomedan community and the backward classes among the Hindus have also benefited by the increased educational activity of the quinquennium. The number of institutions for Mahomadans and specially backward classes and the number of scholars in them during 1910-11 and 1915-16 were as follows :—

	1910-11		1915-16	
	Number of Institutions	Scholars	Number of Institutions	Scholars.
Mahomedans	310	14,182	530	21,851
Backward Classes	106	2,838	287	7,115

In order to enable all such classes to participate in an increasing measure in the benefits of higher education, Government have set apart one lakh of rupees for giving scholarships to students belonging to them.

Special efforts are also being made to improve the depressed classes. A boarding school has been opened for the benefit of Panchamas in Mysore and proposals for starting another boarding school at Tumkur have been sanctioned. A special allotment of Rs. 25,000 has been sanctioned for the provision of buildings and another of Rs. 50,000 has been made for opening new schools.

12. *Training of Teachers.* –Though the supply of trained teachers is still by no means adequate. this branch of educational activity has not been neglected. To provide facilities for more extensive training of teachers. mere normal schools were started in 1914 and the whole scheme of normal training was reorganised. The number of normal institutions rose from 3 to 7 and that of teachers under training from 177 to 431. In addition to these, special vacation classes for training teachers were also held in various centres. Further increased provision is however necessary and the necessary steps are being taken, as rapidly as practicable.

13. *Education and the people.*—The large measure of educational progress above reviewed would not have been possible but for the hearty co-operation of the people. The policy of expansion adopted by Government has been greatly furthered by the active help of the people which has been evinced in many ways. Liberal endowments have been forthcoming for the institution of scholarships and prizes and for, building school houses and hostels. They have also helped by starting new schools and increasing the attendance in existing schools, made gifts of lands for play-grounds and school gardens, and provided furniture and other equipments. A large amount of honorary assistance has also been offered in the shape of service on School Committees. To all those who have aided the progress of education in these many ways His Highness's Government take this opportunity of conveying their lively appreciation.

14. Government wish also to take this opportunity to acknowledge the signal service rendered by the Education Committee during this quinquennium. Many of the improvements introduced and the large developments that have taken place in the various grades of education were greatly facilitated by the interest and enthusiasm displayed by the Education Committee in the investigation and working out of schemes ; and that body with the District Committees has been mainly instrumental in enlisting the co-operation of the people in the cause of education. To the Committee's labours are due in a large measure the introduction of the Compulsory Education Regulation and the expansion of primary education by other means. the opening of vernacular High Schools. the development of adult and normal schools, the starting of the panchama boarding school at Mysore. the establishment of the hostel attached to the Maharani's College. the starting of the Karnataka Parishat. the opening of the Public Libraries at Bangalore and Mysore and the development in the earlier stages of the idea of a University for Mysore.

15. During almost the whole of this quinquennium. the immediate control of the Education Department vested in Rajakaryaprasakta Rao Bahadur M. Shama Rao.

On him and his assistants, officers and subordinates devolved the onerous task of translating into action the various reforms effected and schemes sanctioned during the period. The Department has responded enthusiastically to their ever increasing and heavy responsibilities and Government have already more than once commended their work. They desire once more to record on this occasion their high appreciation of the valuable services rendered by Mr. Shama Rao and his staff during the period under review. The zeal and industry displayed by Mr. M. Venkatesa Iyengar in preparing the Review deserves commendation.

16. Government desire to conclude this review with an expression of hope that the results so far achieved will of themselves give a strong impetus to future progress and that the new Mysore University which is showing signs of robust life will also help to raise the volume, variety and standards of education in the country.

Letter No. 30817-1082,* dated 21st June 1918, from the Inspector-General of Education in Mysore submitting proposals for opening Special English Classes for candidates who have passed the Kannada Lower Secondary Examination being trained for the English Lower Secondary Examination.

(*Printed as an annexure.)

Order No. 2810-11—Edn. 250-17-2, dated 27th September 1918.

At present students who have passed the Kannada Lower Secondary Examination have to study again for nearly five years to become eligible for admission to a High School. With a view to minimise this hardship, the Inspector-General recommends that such students may be given the necessary training in English in two years and that Special English Classes for the purpose may be opened in the 20 institutions mentioned in the appended list.

2. Government arepleased to sanction the above proposals temporarily for two years in the first instance, the necessary funds for the purpose during the current year being met by re-appropriation of sanctioned grants in the budget of the Education Department.

3. The Inspector-General of Education should submit a report at the end of the two years showing how the system has worked. Proposals for the continuance of the scheme, if considered necessary, should also be sent up to Government well in time to enable them to pass suitable orders in the matter before the expiry of the sanctioned period.

ANNEXURE.

Copy of letter No. 30877-1082, dated 21st June 1918, from the Inspector-General of Education in Mysore, to the Secretary to Government, Departments of Education and Agriculture, Bangalore.

I have the honor to bring to your notice that under existing circumstances, considerable difficulty is experienced by the villagers in giving English Education to their children. Except where there are rural A.-V. Schools which are comparatively few in number, the villagers who are generally unwilling to send their children away from their houses are obliged to send their boys to Village Elementary Schools and to put them through the whole of the Lower Secondary course in Kannada before they can think of English Education.

Thus the student who finishes the Kannada Lower Secondary course and wishes to continue for the English High School course, will in almost all cases, under existing conditions have to join the English 1st class and study in all the successive English classes more than five years in a neighbouring A.-V. School, in order to seek admission to a High School. This means a great waste of energy and time at an important period of their lives seeing that the students have to pass the Lower Secondary Examination only in the English language and are older and have more mature brains than the ordinary pupils of the lower English classes.

In order to remedy these defects, proposals have been sent by the Deputy Commissioners of Shimoga and Chitaldrug urging the necessity of special teachers being appointed in A.-V. Schools to train pupils who have passed the Kannada Lower Secondary Examination for the English Lower Secondary Examination in two years thereby effecting a saving of time to the extent of three years which period would actually suffice for completing their High School course after passing the Lower Secondary Examination in the English language.

I am of opinion that the need to create some such facilities for the sake of village students who have not the necessary convenience in their own villages, is real and the arrangements proposed by the Deputy Commissioners are feasible.

Under the circumstances, I beg to recommend the opening of Special English Classes in respect of the 20 institutions noted in the enclosed list with the following additional establishment charges attached to each :—

		Rs.
English Teacher on Rs. 30 per mensem	..	30
Do „ 20-1-25 do	..	$23\frac{1}{3}$
Contingency	..	1
Total	..	$54\frac{1}{3}$ per mensem.

or Rs. 652 per annum.

The cost of the scheme comes to Rs. 13,040 per annum recurring.

I request that Government may be pleased to sanction the sum with effect from 1st July 1918.

As the classes are to be opened early, I request the favour of early orders on the subject, and inclusion of a sum of Rs. 13,040 in the next year's budget.

Government Order No. 682-7—Edn. 69-18-2, dated the 22nd July 1918, appointing a Committee to submit detailed proposals for the publication of three text books on the History of Mysore and the annals of its past heroes suitable to the Primary, Secondary and High School and College classes respectively.

2. Letter No. 284, dated the 23rd August 1918, from the Chairman, Mysore Annals Committee, forwarding copy of proceedings of the Committee at their meeting held on 8th August 1918, and requesting approval of the scheme contained therein and an allotment of Rs. 4,000 as remuneration for writing the text-books.

Proceedings of the Committee for concerting measures for publishing the Annals of Mysore Heroes.

The first meeting was held in the Financial Secretary's room in the Public Officeson the 8th August 1918.

Present.

Rajamantrapravina Dewan Bahadur J. S. Chakravarti, Esq., M.A., F.R.A.S., (Chairman).

Rajakaryaprasakta Rao Bahadur M. Shama Rao, Esq., M.A.

Praktanavimarsa Vichakshana Rao, Bahadur R. Narasimha Char, Esq., M.A.

Rajakaryaprasakta B. Ramakrishna Rao, Esq.

After some preliminary discussion regarding the objects and scope of the books proposed to be published, the following resolutions were passed:—

1. That a series of three Readers containing accounts of Indian and Mysore Heroes be written and published. These books may be included amongst the Examination text-books for non-examination subject in Mysore Colleges and Schools or adopted as a non-examination subject as may be convenient. They may also be used in the Moral Instruction classes.

2. That the advanced reader be written in English and Kannada and used in the College, High School and Upper Secondary classes, English in the former and the Vernacular in the two latter.

A Hindustani version may also be prepared.

3. That the Kannada Advanced Reader be no mere translation of English but an original work based upon the same material.

4. That the other Readers, *i.e.*, middle class Reader and the Primer be written only in Kannada and used respectively in the Lower Secondary stage, *i.e.*, classes IV and V, and in the primary stage, *i.e.*, classes II and III Vernacular and classes I and II English.

That Hindustani versions of the Middle Class Reader and the Primer be also prepared.

5. That the advanced Reader do contain about 250 pages (Crown Octavo) of letter Press and about 50 pages of illustrations; and that it consist of three parts; Part I of 50 pages devoted to Heroes of the legendary period, Part II, of not more than 100 pages devoted to Heroes of all India of the historic period and Part III of not fewer than 100 pages devoted to the Heroes of Mysore of the historic period.

6. That the advanced Reader be written first, in English, the other books in the Vernacular being prepared afterwards on the same model, each divided into three parts.

7. That in Part I, *i.e.*, the legendary period, the Readers do contain accounts of both Hindu and Mahomedan Heroes.

ACCOMPANIMENT

Letter No 6395—L A D 1318, dated the 14th May 1918, from M N Krishna Rao, Esq , B A , Comptroller to the Government of His Highness the Maharaja of Mysore, to B Ramaswamaiya, Esq , B A B L , Secretary to the Government of Mysore, Revenue Department

Adverting to Government Order No 5380-400—Ml 168-17-1, dated the 28th March 1918, directing that the present system of *annual* audit of accounts of Local Boards and Municipalities be changed to one of half-yearly audit, and calling for my proposals in regard to the additional establishment required to give effect to the change, I have the honor to state as follows —

2 The present strength of the peripatetic staff of local auditors employed in annually auditing the accounts of Local Boards and Municipalities and the distribution of work among them are shown below —

I	Bangalore City Municipality, District Fund and Municipal Accounts in Bangalore Deputy Commissioner's Office, Mofussil Municipalities in Bangalore District Kolar Gold Fields Sanitary Board	Two hands (one senior and one junior)
II	Mysore City Municipality Mysore City Improvement Trust Board District Fund and Municipal accounts in Mysore Deputy Commissioner's Office Mofussil Municipalities in Mysore District	Two hands (one senior and one junior)
III	District Boards of and Municipalities, in Tumkur Kolar and Kadur Districts (including Municipal accounts in District Offices)	Two hands (one senior and one junior)
IV	District Boards of, and Municipalities in Shimoga, Chitaldrug and Hassan Districts (including Municipal accounts in the District Offices	Two hands (one senior and one junior)

8 hands (4 senior and 4 junior)

3 According to the new account procedure brought into force from 1st July 1917, the accounts pertaining to Municipal Funds will be maintained in the respective Municipal Offices, and there will be no Municipal accounts to be audited in the Deputy Commissioners' Offices As regards the local audit of the accounts of Taluk Boards, this will have to be considered after the District and Taluk Boards are reconstituted in accordance with the new Local Boards Regulation under the consideration of Government

4 As regards the additional establishment required for conducting half-yearly audits of the accounts of Municipalities and District Boards (including the Kolar Gold Fields Sanitary Board), I beg to state that two half-yearly audits will obviously take up more time than a single annual audit, although the accounts to be audited cover the same period of twelve months in both the cases Not only is the time taken up in journeys in the former case twice that required for the latter but also the time involved in collecting materials and settling down to work and also in examining the disposal of previous objections and closing the work cannot admit of reduction in proportion to the period covered by the audit Again, the accounts of several Municipalities in a district which were all hitherto maintained in the office of the Deputy Commissioner (President) and audited there by the local auditors, will have hereafter to be audited separately in the offices of the Municipalities concerned, and this discentralisation will likewise involve some extra work for the auditors After a careful consideration of all the circumstances, I am of opinion that an additional establishment of *at least* four hands is necessary for working out the new system of half-yearly audits The redistribution of work among the twelve hands (8 as at present plus 4 additional) under the new scheme will be as follows —

Names of institutions	No of auditors required
Bangalore City Municipality (monthly audit)	One hand (senior)
Bangalore District Board, Mofussil Municipalities in Bangalore District and Kolar Gold Fields Sanitary Board	Two hands (one senior and one junior)
Mysore City Municipality (monthly audit)	One hand (senior)
Mysore District Board, and Mofussil Municipalities in Mysore District	Two hands (one senior and one junior).
Kolar District Board Municipalities in Kolar District, Hassan District Board and Municipalities in Hassan District	Do

No. Fl. 1602-22—G. F. 25-17-33, dated 21st September 1918.

Names of institutions.	No. of auditors required.
Tumkur District Board Municipalities in Tumkur District, Kadur District Board Municipalities in Kadur District.	Two hands (one senior and one junior).
Shimoga District Board Municipalities in Shimoga District, Chitaldrug District Board Municipalities in Chitaldrug District.	Do

12 hands (7 senior and 5 junior).

5. In the above redistribution of work, I have purposely allotted a separate hand for each of the City Municipalities of Bangalore and Mysore instead of assigning the audit of the accounts of both the Municipalities to a set of two auditors working together (a senior auditor with an assistant.) This modification of the usual practice of auditors working in pairs has been proposed in the case of the City Municipalities with a view to get their monthly accounts audited then and there instead of once in about three months in arrears, as will necessarily be the case if two hands working jointly are to audit the accounts of both the Municipalities, working about three months in each place. Owing to the heavy transactions and complex nature of the accounts as well as the large number of outstanding objections in the case of the two City Municipalities, I think it is necessary to arrange for a continuous and prompt audit of their accounts and that any small extra cost involved in employing two senior hands (one for each Municipality) instead of one senior and another junior (to work jointly for both the Municipalities) will be more than compensated for by increased efficiency in the maintenance of accounts.

6. Thus, the present staff of four senior and four junior auditors has to be strengthened by the addition of at least four hands, three senior and one junior. In proposing the above increase, I have not, however, taken into consideration the extra work involved in the transition period before completely bringing into effect the new system of half-yearly audits. I have already sketched out in para 2 of my letter No. 3417—L. A. D. 357, dated the 2nd October 1917, the programme of work arranged for by me in order to bring the new system into effect. In brief, this programme involves the audit of accounts of eighteen months, instead of twelve for some of the Municipalities during the current half-year, and of twelve months, instead of six for some of the Municipalities during the next half-year. In order to overtake this extra work and thus bring the new system into normal working order by the end of 1918-19, it is necessary to engage a temporary additional staff of two auditors (one senior and one junior) for a period of one year.

7. In conclusion, I summarise my proposals as follows:—

(a) Four additional hands—three senior on Rs. 80 each and one junior on Rs. 50 to be sanctioned for the normal working of the new system of half-yearly audits.

(b) Two additional hands—one on Rs. 80 and another on Rs. 50 to be sanctioned temporarily for one year for coping with the extra work involved in the transition period.

There will, however, be no extra cost to be incurred by Government on account of the above additional establishment, as it is only half the cost of the local audit establishment (including the addition now asked for) that will hereafter be borne by Government and this will be really less than the full cost of the present establishment which is now being borne entirely by Government.

8. I request the favour of early orders of Government as the extra hands will have to be put on the work by the commencement of July next.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No 14 of 1917-18.

APPELLANT. *vs.* RESPONDENT.

Krishnappa of Halkurki,
Tiptur Taluk.

Subject.

Appeal against Order No. 156, dated 31st July 1913 of the Superintendent of Revenue Survey and Settlements in Mysore directing the levy of water rate on Survey Nos. 108, 109, 113 and 114 of Sarvamanya Halkurki village in the Tiptur Taluk endowed to Sri Vyasarayaswami Matt.

Decision.

The case was heard on 16th April 1918, the appellant being present in person and also represented by an Advocate.

From a perusal of the records, particularly the detailed report of 25th July 1911, from the Taluk Sheristadar, who made a local inspection of the area on which water rate was levied, it is clear that the survey numbers in question receive their supply of water from the source indicated against them. An admission to this effect also appears to have been made by the holders of these survey numbers including the petitioner. A subsequent special report after personal inspection has also been received from the Amildar and it is evident therefrom that water is even now being utilised by the appellant for the lands in question.

Government are therefore of opinion that the water rate under dispute has been rightly imposed and that the appeal should, in consequence be dismissed.

MEMORANDUM

Revision of the scale of expenditure in the Akhal Sha Khadri Darga at Channapana.

This is one of the Chief Mahomedan institutions in the State Though the Darga is endowed with inam lands to the extent of 53 acres 4 guntas assessed at Rs 68-8-0 yet it depends almost wholly upon the Cash Grant of Rs 1 454-6 0 paid from Government for its maintenance The inam lands are said to be badly managed and in the enjoyment of persons unconnected with the institution The question of restoring the lands for the benefit of the Darga has to be taken up early for enquiry and action Pending the settlement of this question and the prospective income to the institution there is very little scope for improving the institution.

2 A large portion of the Cash Grant is utilized as allowances to the several Makkandars which are treated as heritable and divisible. There are many vacancies among these stipendiaries and the amounts payable to them are being saved But enquiries have to be instituted as to whether there are not proper claimants for them before they can finally be brought on as accretion to the institution funds.

3 At the request of the Makkandars, certain slight modifications in the Nityakatle expenses have however been made

4 The balance at the credit of the institution on 30th June 1917, was Rs 6,743-6-2 The question of building a Nagarkhana and a Musafirkhana in connection with the Darga is under consideration.

5. In the present state of the institution finances it seems impossible to levy any percentage charge for the Muzrai Establishment Fund, but on principle a levy of 3¾th per cent will have to be made.

MEMORANDUM.

Proposals for the revision of the scale of expenditure in the Government Annachattram at Melkote.

The Chattram is endowed with a Cash Grant of Rs. 704, per annum and is now located in the Nammalwar Sannidhi.

2. The question of building a Chattram has long been under consideration and many sites suited for purposes of a Chattram were seen by me when I was last at Melkote and the Deputy Amildar was requested to negotiate for the purchase of the dilapidated houses adjoining the Police Station which is considered to be the best of the available sites situated as it is outside the village on the main road in close proximity to the Kalyani and other places.

3. As the Sannidhi where the Chattram is now located is an old dingy building without any pretence to free ventilation and convenience of the pilgrims resorting to the Chattram, it seems advantageous to shift the chattram to a rented building till a new one is constructed. The Deputy Amildar has been requested to find a suitable house.

4. The particulars below exhibit the expenditure incurred under the several heads during the past 5 years :—

		Rs.	a.	p.
(*a*) Establishment charges	..	12	8	0
(*b*) Payment of Nehimi	..	25	0	0
Total per mensem		37	8	0
or per year		450	0	0
(*c*) Feeding charges Nityakatle	..	144	0	0
(ii) Hetchukatle ..	..	110	0	0
Total	..	704	0	0

No. 952-54—M. F. 34-18-2, dated 23rd September 1918.

5. On checking the accounts, it is seen that on an average feeding is conducted 20 days in a month and that about 100 persons are fed. For want of provision under Nityakatle feeding, the Chattram could not be held during the remaining days of the month.

6. For a Chattram of the kind the Nehimi charges seem to be very heavy. Considering the importance of the place and the large number of pilgrims that visit Melkote throughout the year it is necessary that feeding should be conducted on all days except Ekadasis.

7. I would propose the following reallocation of the Chattram grant :—

Establishment:—

	Rs.	a.	p.	
Allowance to Gumasta maintaining accounts, etc.	3	0	0	
Cook and Paricharak	9	0	0	
Gandhakshate	3	0	0	
(He should also perform Puja in the Chattram Vinayaka and Anjaneya shrines).				
Kaval and Jadmali	3	0	0	
(These servants should be fed once on the days the santarpane is conducted in the chattram.)				
Per month	18	0	0	
or per year	216	0	0	

Nityakatle :—

Feeding	25	0	0	
House-rent and contingencies	5	8	0	
Per mensem	30	8	0	
or per annum	366	0	0	

Hetchukatle :—

Feeding during Vairamudi	75	0	0	per annum.

Miscellaneous :—

Contribution to Muzrai Establishment Fund at 3½th per cent..	22	0	0	
Reserve for repairs, etc.	25	0	0	
Per annum	47	0	0	
or Grand Total per annum	704	0	0	

8. The Peshkar of the Sri Narayanaswami temple will exercise control over the chattram servants and its management.

9. The chattram had a cash surplus of Rs. 1,723-13-0 at its credit on 30th June 1917.

No. 910-12—M. F. 39-18-2, dated 18th September 1918.

NOTE.

Revision of the scale of Sri Prasanna Nanjundeswaraswami temple, Santepet, Mysore City.

The average income of the institution for the past five years is about Rs. 2,505 as shown in the statement appended. There has been no material increase in the income of the temple except a slight increase of about Rs. 70 in the collection of shop rents as compared with the income at the time when the scale of expenditure was last revised in Government Order No. 182-4—Muz. 698-12-4, dated 25th October 1913.

2. Some lands have been newly granted to the temple in Naganahalli, Mysore Taluk, in exchange for temple lands in Kallahalli village, Yedatore Taluk, which was brought under submersion by the Kannambadi project. These lands are now uncultivated, but it is hoped they will be taken up soon or some other lands obtained instead. In the meanwhile, the estimated income from this source is left intact.

3. Since the time of last revision, the prices of food stuffs and other articles have considerably increased, so as to justify the present revision. In the scale proposed the pay of some of the members of the temple establishment has been slightly increased. Provision has also been made in the scale for two seers of *alankara* offering to the deity every night which will be distributed to 8 poor students who are at present being fed during day time by some of the charitable gentlemen of the City. This provision has been made at the earnest request of the Dharmadarsis and the temple funds can well bear the charge.

Establishment.

4. The establishment charges as per proposed scale is Rs. 94-3-0 per month as against Rs. 80-7-0 in the existing scale. Out of the above, Rs. 60 is for additional Paricharak for Ammanavaru Sannidhi who will relieve the Paricharak of Swami Sannidhi from part of his work which is at present too much for one man.

Nityakatle.

5. The provision in the proposed scale is for an additional daily Naivedya of two seers of *Alankara* during night at a monthly cost of Rs. 10 for feeding the poor students.

Hetchukatle.

6. Under the item Rathotsava an addition of a sum of Rs. 24 is provided for.

7. The total expenditure under the proposed scale amounts thus to Rs. 2,030-11-0 as against Rs. 1,760-11-0 in the existing scale involving an increase of Rs. 270 per annum. The annual savings of the temple will be (Rs. 2,505-0-0 minus Rs. 2,030-11-0) about Rs. 474-5-0 which is 19 per cent of the average income.

8. The surplus at the credit of the temple is only Rs. 1,470-2-10 which will have to be reserved for the benefit of the institution.

9. The temple is in good order and the income of the temple will bear a contribution of 6¼ per cent for purposes of the Muzrai Establishment Fund.

MEMORANDUM.

Revision of the scale of Government Annachattram at Seringapatam.

The institution has an annual Cash Grant of Rs. 3,692-4-0. In the proposed scale of the pay of the establishment is slightly increased owing to the difficulty of finding competent men for work.

2. The Nehimi charges paid of this Annachattram Funds are very heavy and will have to be scrutinized and reduced. The Nehimidars are all paid in cash, but the rates of conversion adopted are not uniform. A uniform rate calculated on the average price of the last 6 years has been adopted in all these cases.

3. The issue of *lavajama* to the Branch Uttaradi Matt for the Aradhane of Sri Vidhyadhisa Swamigalu should be suspended pending the production by the Matt authorities of the documents in their possession to substantiate their claim. No record to justify the grant has been traced in the office records.

4. A statement showing the details of income and expenditure is appended.

5. The surplus at the credit of the institution on 30th June 1917 was Rs. 5,004-8-5.

6. A contribution at 6¼ per cent may be levied for purposes of the Muzrai Establishment Fund.

3. Letter No. 2622, dated 11th June 1918, from the Muzrai Superintendent in Mysore, submitting for sanction a revised scale of receipts and expenditure in the said temple together with a memorandum explaining the nature of the proposed revision.

*(Printed as accompaniment.)

Order No. 1064-66—Muz. 30-18-2, dated 30th September 1918.

Government consider the revised scale proposed by the Muzrai Superintendent suitable and are accordingly pleased to sanction the same.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept.

To—The Muzrai Superintendent in Mysore.
The Deputy Commissioner, Mysore District.
The Comptroller, Mysore Government.

MEMORANDUM.

Revision of the Scale of Sri Pete Lakshminarayanaswami Temple at Seringapatam.

The institution is a private one endowed with lands and handed over to Government management. It has no cash tasdik from Government. Total annual income from lands, interest on investments, and shop rent is on an average Rs. 1,817. Allowing for fluctuations, the total average income may be roughly taken to be Rs. 1,775.

2. The existing scale provides for an annual expenditure of Rs. 814-13-8. As the temple is a small one and is situated in a place where there are other larger and more ancient institutions of celebrity and sanctity, no material change in the sanctioned scale is necessary except some increments in the pay of the temple servants which are pitched somewhat low. The total expenditure as per proposed scale is, therefore, Rs. 976-13-8.

3. Surplus at the credit of the institution on 30th June 1917 was Rs. 23,543-2-8 (Rs. 3,543-2-8 uninvested and Rs. 20,000 invested). The temple building is in excellent condition and if the institution is not a private one handed over to Government management, I would have proposed the absorption of about Rs. 20,000 of the surplus for the general Muzrai Fund. I shall make separate proposals for the advantageous utilization of this large recurring surplus.

4. A contribution of 6¼ per cent may be levied for the Muzrai establishment fund.

Letter No. 2622, dated 11th June 1918, from the Muzrai Superintendent in Mysore submitting for sanction proposals for the revision of the scales* of income and expenditure of the Sri Gangadhareswaraswami and Sri Jyotirmaheswaraswami temples at Seringapatam together with an explanatory memorandum.

*(Printed as accompaniment(s).)

Order No. 921-23—Muz. F. 33-18-2, dated 20th September 1918.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same. The proposal to treat the Jyotirmaheswaraswami temple as a subsidiary institution attached to Sri Gangadhareswaraswami temple is approved.

The question of levying contribution on the income of the institution towards the Muzrai Establishment Fund will be considered later on and separate orders issued in the matter in due course.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept.

To—The Muzrai Superintendent in Mysore.
The Deputy Commissioner, Mysore District.
The Comptroller, Mysore Government.

MEMORANDUM.

Revision of the scales of Sri Gangadhareswara and Sri Jyotirmaheswara temples, at Seringapatam.

Sri Jyotirmaheswara temple at Seringapatam is a minor institution dependent solely on a cash grant of Rs. 371-11-0 per annum. Though the temple building is a large one, it has not a full complement of servants nor has it a large circle of devotees. It will, therefore, be an advantage to treat it as subsidiary to Gangadhareswaraswami temple which is the chief Saiva institution of the place and situated close by. But separate accounts will be maintained for these institutions.

2. Sri Gangadhareswaraswami temple has an average annual income of Rs. 2,476-8-0, out of which Rs. 2,026-8-0 is cash grant and Rs. 450 average annual income from *Sevartha* and the temple garden lands. The *Sevartha* lands are *Puduvat* lands endowed for the celebration of the Sivaratri Rathotsava.

Establishment.

3. The charges under this head in the proposed scale amount to Rs. 94-12-0 per month as against Rs. 88-8-0 in the existing scale.

Nityakatle.

4. There is no change under this head.

No. 921-23--Muz. F. 33-18-2, dated 20th September 1918.

Hetchukatle.

5. The only change under this head is the provision for a few items unprovided for in the existing scale and the reduction of Rs. 50 in the expenditure of Sivaratri Rathotsava.

6. The total expenditure as per proposed scale is Rs. 2,275 as against Rs. 2,220 of the existing scale.

7. The balance at the credit of the institution on 30th June 1917 was Rs. 5,912-8-11, out of which Rs. 4,658-8-5 was uninvested and Rs. 1,254-0-6 invested. But no portion of the amount can be made available for the General Muzrai Fund as the temple will have to be taken up for general repairs soon which will consume the greater part of the savings.

8. The temple can afford to pay a contribution of ·3¾th per cent upon its income for the Muzrai establishment Fund which will come to about Rs. 75 a year.

Sri Jyotirmaheswaraswami temple

9. The only income of the temple is the Cash Grant of Rs. 371-11-0. The following revised scale of expenditure is proposed :—

		Rs.	a.	p.
I. Establishment	...	192	0	0
II. Nityakatle	...	132	0	0
III. Miscellaneous	...	31	11	0
Total	...	355	11	0

A saving of Rs. 16 is left as reserve.

10. The number of hands in the proposed establishment has been reduced from 9 to 4 and a slight increase effected in their pay. The Parpattegar of Sri Gangadhareswaraswami temple will supervise on receipt of a small allowance.

MEMORANDUM.

Revision of the scale of Sri Kasivisveswaraswami temple at Gosayi Ghat, Seringapatam Taluk.

The institution has an average income of Rs. 1,380 (Rs. 1,100 from Inam lands endowed to it and Rs. 280 interest on investments).

In the existing scale, a sum of Rs. 300 is spent for purposes of the temple and out of the surplus grants-in-aid are given temporarily at an aggregate cost of Rs. 315 a year to two other institutions, *viz.*, the Sri Sarada temple at Sivaganga and to the temple at Hulimavu in the Bangalore Taluk. In the revised proposal, these grants are retained and out of the balance some increases are proposed. There will still remain at the disposal of the temple a recurring surplus of more than Rs. 250, excluding the income from investments.

Establishment.

2. The proposal provides for a huvvadiga and an additional kavalgar and increased pay to the existing three servants. An allowance is provided for Parpattegar of Gangadhareswara temple to supervise this temple also.

Nityakatle.

3. Under this head provision is made for a daily Naivedya of one seer of rice.

Hetchukatle.

4. Additional provision is made for Karthika Somavara, His Highness the Maharaja's Birthday and the annual ceremony day of the founder at an increased cost of Rs. 20.

Miscellaneous.

5. Under this head an additional provision of Rs 25 for the purchase of cloths and other contingencies is made.

6. The total provision as per proposed scale is thus Rs. 842-2-0 as against Rs. 614-2-0 of the existing scale.

7. The surplus at the credit of the institution on 30th June 1917 was Rs. 13,454-4-11 (Rs. 5,454-4-11 uninvested and Rs. 8,000 invested). An estimate is under preparation for the thorough repairs of the institution which is expected to cost nearly Rs. 2,500 leaving an additional sum of Rs. 1,000 for the use of the institution, a sum of Rs. 10,000 can be made available for incorporation in the General Muzrai Fund.

8. There will be a recurring surplus of Rs. 258 a year and it will bear a contribution of 6¼ per cent for purposes of the Muzrai Establishment Fund.

MEMORANDUM.

Proposals for fixing a revised scale of expenditure in Kikkeri Subba Rao's Chattram at Kikkeri in the Krishnarajpete Taluk.

The Chattram together with its endowment (Rs. 21,892-14-10) was taken under Government management during the days of Mysore Commission and it has continued to be so.

2. A sum of Rs. 766 is realized as interest on the investment annually and the following expenditure is incurred:—

Establishment.—

	Rs.	a.	p.	
Parpattegar	3	0	0	In addition he gets 20 seers of rice with condiments a month.
Cook	4	0	0	Do 20 seers.

Nchimis.—

(1) Sri Yoganarasimhaswami at Kikkeri .. Seven seers of rice with condiments.
(2) Sri Brahmeswaraswami .. .. Do
(3) Sri Paravasadevaru at Anegola .. .. Fourteen seers of rice and annas 12 in

No. 1073-75—Muz. F. 40-18-2, dated 30th September 1918.

3. Checking the previous 5 years' accounts it is found that on an average 67 travellers are fed per month at a cost of Rs. 29-13-7, including the cost of Nehimi charges.

4. The temples of Sri Yoganarasimhaswami and Sri Brahmeswara are institutions of great archæological interest and the cash grants they are in receipt of are very small and quite inadequate for establishment and Nityakatle expenses. The Nehimi given from the chattram is also very small.

5. The following scale of expenditure may be fixed:—

	Rs.	a.	p.	
Parpattegar	4	0	0	
Cook	6	0	0	
Jadmali	1	0	0	
	11	0	0	
(These servants to be fed once a day)

Sri Brahmeswaraswami temple (one seer of rice with condiments for Neivedya per diem)	7	0	0	
Sri Paravasadevaru at Anegola.. ..	3	0	0	
	53	0	0	per month or
	636	0	0	per year.

6. A percentage contribution of 6¼ per cent on the total annual income may be levied which will come to Rs. 50, leaving a balance of Rs. 90 for annual repairs, etc.

7. The chattram had a cash balance of Rs. 2,916-7-1 on 1st July 1917. Repairs to the extent of about Rs. 1,000 are required to be executed.

Order No. 1060-62—M. F. 38-18-2, dated 28th September 1918.

The question of levying contribution on the income of the institution towards the Muzrai Establishment Fund will be considered later on and separate orders issued in the matter in due course.

To—The Muzrai Superintendent in Mysore.
The Deputy Commissioner, Mysore District
The Comptroller, Mysore Government.

MEMORANDUM.

Proposals for fixing a scale of expenditure in the Sri Janardhanaswami temple at Mandya.

The temple is an ancient one. Though its total annual income falls slightly short of Rs. 1,000 it may be treated as a "major" institution on account of its importance and local celebrity. The question of fixing a regular scale of expenditure in this temple has been the subject of prolonged correspondence since 1910 and various proposals have been made. The chief cause of delay is due to the claim put forward by the recipients of the "Sthalavasa" allowance to take it in the shape of raw rice. There seem to be some reasonable grounds in support of the claim and the practice is similar to what obtains at Melkote.

2. Definite instructions to regulate the distribution of Sthalavasa rice allowance is a great desideratum and the matter is engaging attention.

ESTABLISHMENT.

3. Small increases to the Archak, Paricharak, Flowerman and Bhajantris have been proposed. The offices of the Cook and Paricharak have been combined, as it is difficult to find separate individuals for both these posts on such a small pay. A Parpattegar with a small allowance to look into the distribution of Sthalavasa allowance, maintain temple accounts and to attend to other requirements is necessary.

NITYAKATLE.

4. One and half seers of rice per day with cash for the purchase of curds or about Rs. 15 a month was being paid from the local Chattram but this has been stopped as the provision was omitted by mistake in the statement of Nehimis attached to the Chattram submitted to this office by the Amildar. Separate proposals have been made for the continuance of the grant from the Maddur Chattram. Pending revival of the grant, the present arrangement will be continued.

HETCHUKATLE.

5. Bills on account of certain items of Hetchukatle expenses incurred in the temple are being received every year as there is no provision for such expenditure in the existing scale. The requirements in this respect have been studied on the spot and a scale drawn up in consultation with the Dharmdarsis and the devotees. The amounts now fixed for the several items are the maximum that the temple resources can permit.

6. The surplus at the credit of the temple on 1st July 1917 was only Rs. 1,468-2-9. In common with other Muzrai Institutions, the temple ought to contribute at least 3 & ½th per cent, for the Muzrai Establishment Fund. In calculating the contribution payable, the nehimi from the Maddur Chattram should be excluded.

Letter No. 2622, dated 11th June 1918, from the Muzrai Superintendent in Mysore, submitting for sanction revised proposals of income and expenditure in the Sri Lakshminarasimhaswami temple at Seringapatam, together with an explanatory memorandum thereon.

*(Memorandum and scale of income and expenditure are printed as accompaniments.)

Order No. 1070-72—Muz. F. 29-18-2, dated 30th September 1918.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

The question of levying contribution on the income of the institution towards the Muzrai Establishment Fund will be considered later on and separate orders issued in the matter in due course.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept.

To—The Muzrai Superintendent in Mysore.
The Deputy Commissioner, Mysore District.
The Comptroller, Mysore Government.

MEMORANDUM.

Revision of the scale of Sri Lakshminarasimhaswami temple at Seringapatam.

The institution has, taking last five years' average, an income of about Rs. 1,967 a year, out of which Rs. 1,739-12-0 is Cash Grant. As the temple was badly in need of repairs, the recurring expenditure was curtailed by cutting down establishment and stopping Utsavas. The repairs have been mostly executed and what remains can be attended to from the surplus at credit. There is no longer any reason for special effort being made to save and the proposed scale, therefore, restores the usual temple *utsavas*.

2. *Establishment.*—In the proposed scale provision is made for an establishment of 24 hands as against 33 of the existing scale and the pay of the low paid servants is suitably increased. No provision is made for the service of Adhyapakas in the temple as its proximity to Sri Ranganathaswami temple will secure to it the services of such persons on special utsava occasions.

3. *Nityakatle.*—There is no material change in the provision under this head, except that an additional sum of Rs. 2 is provided owing to present rise of prices.

4. *Hetchukatle.*—A sum of Rs. 152 is provided under this head to restore the Utsavas and is fixed on a modest scale.

5. The total expenditure detailed in the statements appended is Rs. 1,531-12-0.

6. The surplus at the credit of the institution on 30th June 1917 was Rs. 8,721-9-1 (Rs. 5,442-2-1 uninvested and Rs. 3,279-7-0 invested). There is still a great deal to do by way of repairs and no portion of the amount can be spared for contribution to the General Muzrai Fund.

7. As regards the Muzrai Establishment Fund, a contribution of 3½th per cent or Rs. 62 on the income may be levied.

The programme of Public Works in the Mysore District was the only one that was received on the due date, *viz.*, on 1st March 1918. The Public Works Programme of the Tumkur District and the Village Works Programme of the Shimoga District were received as late as the 13th and 22nd of July, respectively, while the Village Works Programmes of Tumkur and Bangalore Districts have not yet been received. It is needless to emphasise the importance of the punctual submission of these programmes. The very object with which they are prescribed will be frustrated if they are not submitted in time, and the Deputy Commissioners concerned are requested to give their personal attention to this matter and make special arrangements for the submission of the programmes of their districts on the due dates in future.

No. P. W. 2079-99—M. 11111-31, DATED 17TH SEPTEMBER 1918.

2. *Summary of programmes.*—**The total number of projects of all kinds in the several districts, excluding Village Works in the Bangalore and Tumkur Districts, is 4,727, of an estimated aggregate cost of Rs. 6,02,32,104. Of this, a sum of Rs. 4,70,06,891 is available for the employment of 70,51,03,365 units of famine labour. The following statement gives the particulars of several classes of projects :—**

4. ***Number of persons to be provided for and adequacy of programmes.***—According to Section 20 of the Mysore Famine Code, provision has to be made for the relief of 7,27,489 persons for six months, that is to say, 13,09,48,020 units of famine labour. It will be seen from the following statement that the provision under sanctioned Public Works is deficient in the districts of Kolar, Mysore and Hassan. There is a fall from 94 per cent to 26·5 per cent in the Mysore District, and there is more than ample provision in the Shimoga District, the provision in the remaining districts being fair. The provision under the sanctioned Village Works in the districts from which information is received, is very poor. The sanctioned programmes provide only about 70·5 per cent of the total number of units required under the Famine Code, though a large number of works have been brought in under the Public Works Emergency Programmes in the Shimoga District during the year. The matter does not seem to have received adequate attention by the Deputy Commissioners, though the deficiency was pointed out in previous years, and they are requested to make a special endeavour to get more projects prepared and sanctioned in order to make up for the same. A half-yearly return as to the progress made in preparing projects and getting them sanctioned will be submitted to this office by the Deputy Commissioners before the end of December 1918, and number of works added to the sanctioned list during the year should be reported by each Deputy Commissioner while submitting the next programmes.

5. ***Defects in the programmes.***

PUBLIC WORKS.

Kolar Division.—Item 59 has to be classed under i (*b*) instead of under i (*a*).

Tumkur Division.—The total amount given in Form IV, column 5, does not coincide with that furnished in Part I. None of the Public Works Programmes of Divisions except those relating to Tumkur District give the District Abstract under Form IV. The Executive Engineers concerned are requested to furnish them in future.

VILLAGE WORKS.

Hassan District.—The total number of units given in Form IV is incorrect. It ought to be 7,62,53,905 and not 65,42,569. The District Abstract and the total are not given in Book II, Village Works, as required.

Chitaldrug District.—The total number of units given in Form IV and in Book II does not tally with that given in the Famine Statement, Form III. These inaccuracies should be rectified and greater care must be taken in preparing the programmes.

No. P. W. 2079-99—M. 11111-31, DATED 17TH SEPTEMBER 1918.

6. As required in Section 31 (3) of Famine Code, an abstract containing only the total number of persons available for Famine duty, is required for the purpose, and not a detailed list containing names of persons.

Persons available for famine duty:—

2. None but the programme of Public Works in the Mysore District was received on the due date, *viz.*, 1st March 1918. It is very unsatisfactory that the Public Works Programme of the Tumkur District and the Village Works Programme of the Shimoga District should have been submitted so late as the 13th and 22nd of July respectively. Still worse it is that the Village Works Programmes of the Tumkur and the Bangalore Districts should yet remain to be submitted. The Deputy Commissioners of these districts should be called upon to submit these programmes at once and to explain the cause for such unusual delay on their part, in spite of the repeated attention to the matter called by Government year after year.

3. The deficiency in the sanctioned Public Works of the Kolar, Mysore and Hassan Districts should be made good as early as possible. The Superintending Engineers concerned should give their special attention to the matter. The provision under sanctioned Village Works is indeed very poor and there is not much improvement in this direction from year to year. This can be attributed only to the indifference of the Deputy Commissioners to this matter. The proposal of the Revenue Commissioner to call for a half-yearly progress report is approved. Effective control should be exercised over the work of District Revenue officers in this respect.

4. The defects and inaccuracies pointed out by the Revenue Commissioner in some of the programmes should be rectified.

5. The reserve stock of famine tools stored in the Public Works Stores at Bangalore has been ordered to be distributed to the districts. The proposals called for from the Superintending Engineers to give effect to this order should be expedited.

6. A copy of the abstract statement (Form III) of the Famine Relief Programmes for the year under review is appended for information. The Revenue Commissioner is requested to furnish a complete statement including the figures relating to Village Works of the Tumkur and Bangalore Districts after the receipt of those programmes.

READ --

Government Order No R S 2912-18—Ry. F 190 G -17-18, dated 26th March 1918, sanctioning the continuance, till 3rd January 1918, of an allowance of Rs 100 to all Executive Engineers and Rs. 50 to all Sub-Divisional Officers, as well as a local allowance equal to 20 per cent of their pay to all Upper Subordinates, transferred from the Public Works Department with the observation that separate orders would issue as regards the continuance of the allowances beyond the date mentioned above

2 Railway Secretary's Note No 625, dated 30th April 1918, soliciting orders as regards the continuance of the allowance in question on and after 3rd January 1918

Order No. R. S. 913-918—Ry. F. 190 G.-18-19, dated 20th September 1918

On a careful consideration of all the circumstances of the case, the Government are pleased to order as follows —

In future, allowances to Public Works Officers should not be given as a matter of course on transfer to the Railway Department, but only on consideration in each case of the nature of duties to be performed in the Railway Department. For officers transferred for Survey and Construction works the allowance might be generally given and for other works, only if the duties involved are considered so difficult and arduous that an allowance would have been given for similar work in the Public Works Department.

2. The allowances for Executive and Assistant Engineers (including Sub-Assistant) will remain at Rs. 100 and Rs. 50 per mensem, respectively, as heretofore. The rates for subordinates should ordinarily be 20 per cent of salary.

3 All Public Works Officers and Subordinates employed in the Railway Department who are in receipt of allowances at present will continue to draw them. But except in the case of those employed on Survey or Construction work such allowances should, unless otherwise ordered, be absorbed on increase of emoluments in the same way as personal allowances.
